Hiking in Obertauern

SUBHEADING

From gentle alpine pasture walks to demanding summit ascents

SHORT TEXT

Mountain lakes, wide alpine meadows and summit views accompany you along more than 280 kilometres of hiking trails in and around Obertauern. Choose your route, lace up your boots and explore the mountains at your own pace.

TEXT

Sometimes, a gentle circuit with a break by the lake is all you need. On other days, a long climb and summit views beckon. Obertauern's hiking trails offer space for both, with more than 20 alpine lodges in the region ready to welcome you for refreshments.

The 3-Lakes Hike is more demanding; the Oberhütten-Tour offers a longer mountain hike. Gulpitscheck and Pleisslingkeil are suitable for experienced mountain hikers. Choose your route according to your fitness, experience and the weather; the difficulty rating reflects the most demanding section.
