

HEADING

Night skiing in Obertauern

SUBHEADING

Evening turns on the floodlit piste

SHORT TEXT

When the village lights come on, another round of skiing awaits at the Edelweissbahn. Every Monday and Thursday, you can enjoy evening turns here on the floodlit piste from 7:00 PM to 10:00 PM.

TEXT

Views of Obertauern in the evening, clear winter air and a floodlit piste: night skiing adds a different atmosphere to your skiing day. The run by the Edelweissbahn is about 1.5 kilometres long, letting you keep turning after sunset.

Night skiing is included with Obertauern or Lungo ski passes valid for 1.5 days or longer. If you only want to ski in the evening, you can buy an evening ticket at the valley station. Points cards can also be used. The SuperSkiCard and Obertauern ski passes valid for one day or less do not cover night skiing.
